# **COPD: from evidence to practice**

Institute of Physics, London, W1  
11th & 12th March 2010

**12 CPD POINTS APPLIED FOR**

MA HEALTHCARE LIMITED

***40 YEARS OF MEDICAL EDUCATION***

## Objectives

**COPD: from evidence to practice** will bring together leading experts in the field of respiratory medicine to discuss the current issues, latest developments and practical management of COPD.

It is anticipated that participants will benefit from:

- Comprehensive reviews of the fundamentals of COPD including an update on epidemiology, pathophysiology and co-morbid conditions
- An in depth focus on the management of stable disease including the importance of pharmacotherapy, pulmonary rehabilitation and home oxygen therapy
- A greater understanding of the management of acute exacerbations including the prevention of hospitalisation, the outcome of mechanical ventilation and the ethical issues surrounding resuscitation
- An overview of current models of care for COPD
- An insight into alternative therapeutic interventions including bronchoscopic and surgical interventions
- An opportunity to share and exchange ideas with leading practitioners in the field

## Who should attend?

**COPD: from evidence to practice** is aimed at all medical professionals and will be of particular interest to the following:

- Specialists in respiratory and thoracic medicine
- GPs with a specialist interest in respiratory medicine
- Specialist respiratory nurses
- Physiotherapists
- Specialists in care of the elderly
- Community nurse specialists
- Practice nurses
- Smoking cessation advisors
- Specialists in rehabilitation
- All trainees in these disciplines
